

## GUTTA PERCHA TUBING.

MANY inquiries having been made as to the durability of Gutta Percha Tubing, the Gutta Percha Company beg to call attention to the following Extracts of Letters from parties who have used it for a considerable length of time:—

From Sir RAYMOND JARVIS, Bart.

"Ventnor, Isle of Wight, March 10th, 1852.

"In reply to your letter respecting the Gutta Percha Tubing for Pump Service, I can state with much satisfaction, it answers perfectly. Many Builders and other persons have lately examined it, and there is not the least apparent difference since the first laying down, now several years; and I am informed that it is to be adopted generally in the houses that are being erected here."

From C. HACKER, Esq. Surveyor to His Grace the DUKE of BEDFORD.

SECOND TESTIMONIAL (AFTER TWO YEARS' TRIAL).

"Office of Works, Woburn Park, January 10th, 1852.

"In answer to your inquiries respecting the Gutta Percha Tubing for Pump Suctions, I find that the water has not affected it in the least, although it will eat lead through in two years. We have adopted it largely, being cheaper than lead, much easier fixed, and a more perfect job."

•• The Company's Illustrated Circulars, containing copious information relative to the various applications of Gutta Percha, together with full directions to Plumbers for joining tubes, lining tanks, &c. will be forwarded (post-free) on receipt of three postage stamps.

THE GUTTA PERCHA COMPANY, PATENTEES, 18, WHARF-ROAD, CITY-ROAD, LONDON.
